were
offered
internships -
2024

Month Intern Offers are Received

Get Ready for Career Fairs

- 9/16 from 12-4pm – **CSC Career Connections**: virtual career fair with CSC ePartner companies. Sign up for meetings starting on 9/3.
- 9/18 & 9/19 from 9-4pm – **Engineering Career Fair**: in-person @ McKimmon Center, visit CF+ to start researching companies & plan for your day. [POV video for the ECF](#)

POV Video for Career Fairs

Career Fairs

- Do your **research!**
 - What positions are they recruiting for?
 - How do your interests & skills align with their work?
- Practice an **introduction.**
 - 30-60 seconds, tailored to what you find interesting about their opportunities, and your matching strengths.
- Prepare **questions** to ask them!
 - What's the recruiting timeline?
 - What happens after you apply online?
 - Show your curiosity!

The Unknown

- Many factors in your intern/job search are out of your control, and change is the constant
- Companies determine their own hiring processes and timelines BUT Career Services advisors stay up to date, & can help!
- Important things **you can do for your career** right now
 - Do WELL in your classes: companies and university programs may have GPA requirements, and it demonstrates that you can learn and meet expectations
 - Spend a **reasonable** amount of time on your **intern/job search on a consistent basis**: keep the process from being overwhelming, and reduce chance of missing out on opportunities

FRAUD

in the Job Search
don't get scammed!

Scammers try to take advantage of job seekers to steal money or personal information. Job seekers should be skeptical when they see red flags like these:

- Use of Gmail, Yahoo, or other generic email services
- Use of services like Telegram, Google chat, or MS Teams chat for interviews
- Job offers made very quickly, without much screening
- Requests for personal identification info (like SSN) for reasons other than background check or completion of I-9 form
- Payment by check BEFORE work is completed (or check cashing as part of the work tasks)

If you are in doubt about a suspicious contact for interview or job offer, you are more than welcome to reach out to Leslie via email or Slack. We can work together to quickly determine if you should continue contact with this person.

ETHICAL JOB SEEKING

- As a professional, you will face ethical dilemmas in the workplace.
- Show employers you know how to handle these situations by demonstrating you are an ethical job seeker!
- Your professional reputation is hard to establish, and much easier to damage.
- If you need **time to decide on an offer, ask for it**
 - Resources are available to assist with “how to” make this request
- Accept a job/intern offer in **GOOD FAITH**
 - **Discontinue other applications & interviews** once you accept
- [Link to resources](#) on accepting offers & asking for more time.

CSC Student Opportunities - Week of 9/17

CSC students - Below is info on ePartner and/or other departmental events and opportunities that you might be interested in! Consult and/or subscribe to the [department calendar](#) for the most up-to-date information.

EVENTS!

Monday, 9/18, 12-4P (Virtual Event) - ePartners Career Connection - This popular **recruiting event is offered exclusively for computer science students** and our ePartner companies. This virtual event will be hosted on the Career Fair Plus platform, and participating companies will recruit undergrad and grad students for internships, co-op positions, as well as full-time new grad positions for December and May grads. Students should **download the Career Fair Plus app** (available via web, or apps for iOS or Android) and set up an account in order to secure slots with companies for interviews. **Signup opened for this event on 9/6, and slots are first come, first served. Check back frequently as slots are being added daily.** Companies committed to date include: **Bandwidth, BCBS of NC, Cisco, Deutsche Bank, Fidelity Investments, Google, Jurassic Capital, Kadro Solutions, LexisNexis, Live Oak Bank, Lucid, NetApp, Prometheus Group & SAS.** A complete list of all the career fairs at NC State on the Career Fair Plus platform can be found at https://app.careerfairplus.com/hcsu_nc, including the NC State Engineering Career Fair, as will others.

Wednesday, 9/27, 6:30-7:30P (1231 EB2) - Labcorp Speakers Series Presents Jerry Heneghan - Join us as **Jerry Heneghan**, Co-founder & Chief Design Officer, BioMojo, LLC, will speak on the topic - *"Biosystems and Human Performance Computing."* For those unable to or uneasy joining us in person, the talk will be broadcasted live at <https://go.ncsu.edu/labcorpspeakerseries>. **This lecture has been approved by the CSC Graduate Oversight Committee to count toward the required lectures for graduate students. This is the first fall talk in the series!** For speaker bio and talk abstract, check out the [talk page](#).

SPECIAL ANNOUNCEMENTS

100 Student Scholarships Available to All Things Open 2023!! - [All Things Open](#), the largest open source/tech/web conference on the U.S. east coast (October 15-17 - Raleigh Convention Center) is again making scholarships available to NC State students. 100 are available on a first-come first-served basis, so move quickly if interested. [Conference website](#), [Registration Link](#) (click to begin registering, click "get tickets" and choose the option you'd like - cost will be \$0). Questions or issues registering? Contact ATO directly at info@allthingsopen.org.

Be sure to check out all the CSC related job postings in ePACK [here!](#)

Check Monitors

The screenshot shows the NC State University Computer Science website. A green dashed circle highlights the 'COMING EVENTS' section, which lists four events: 'Linux 101 & InstallFest' (Sep 8, Friday 4:30 pm), 'Martin Marietta Atrium Event' (Sep 12, Tuesday 10:00 am), 'First Meeting of Active Minds' (Sep 12, Tuesday 4:00 pm), and 'STARS Resume Workshop' (Sep 13, Wednesday 4:30 pm). Another green dashed circle highlights the 'Department of Computer Science' contact information in the footer, including the address '800 Oval Drive, Raleigh, NC 27695'. A third green dashed circle highlights the 'Employment' link in the footer navigation menu. The website header includes the NC State University logo, a search bar, and navigation links for 'About', 'Academics', 'Research', 'People', 'News', and 'Contact'. The main content area features a large banner about a 'New Weapon in the War on Robocall Scams', a 'FUTURE STUDENTS' sidebar with links for 'CURRENT STUDENTS', 'FACULTY & STAFF', 'ALUMNI', and 'CORPORATE RELATIONS', and a 'labcorp' speaker series logo.
